

LABOR LAW COMPLIANCE POSTERS

COMPLIANCE CHECK GUIDE

Using QR Code Readers on Portable Electronic Devices

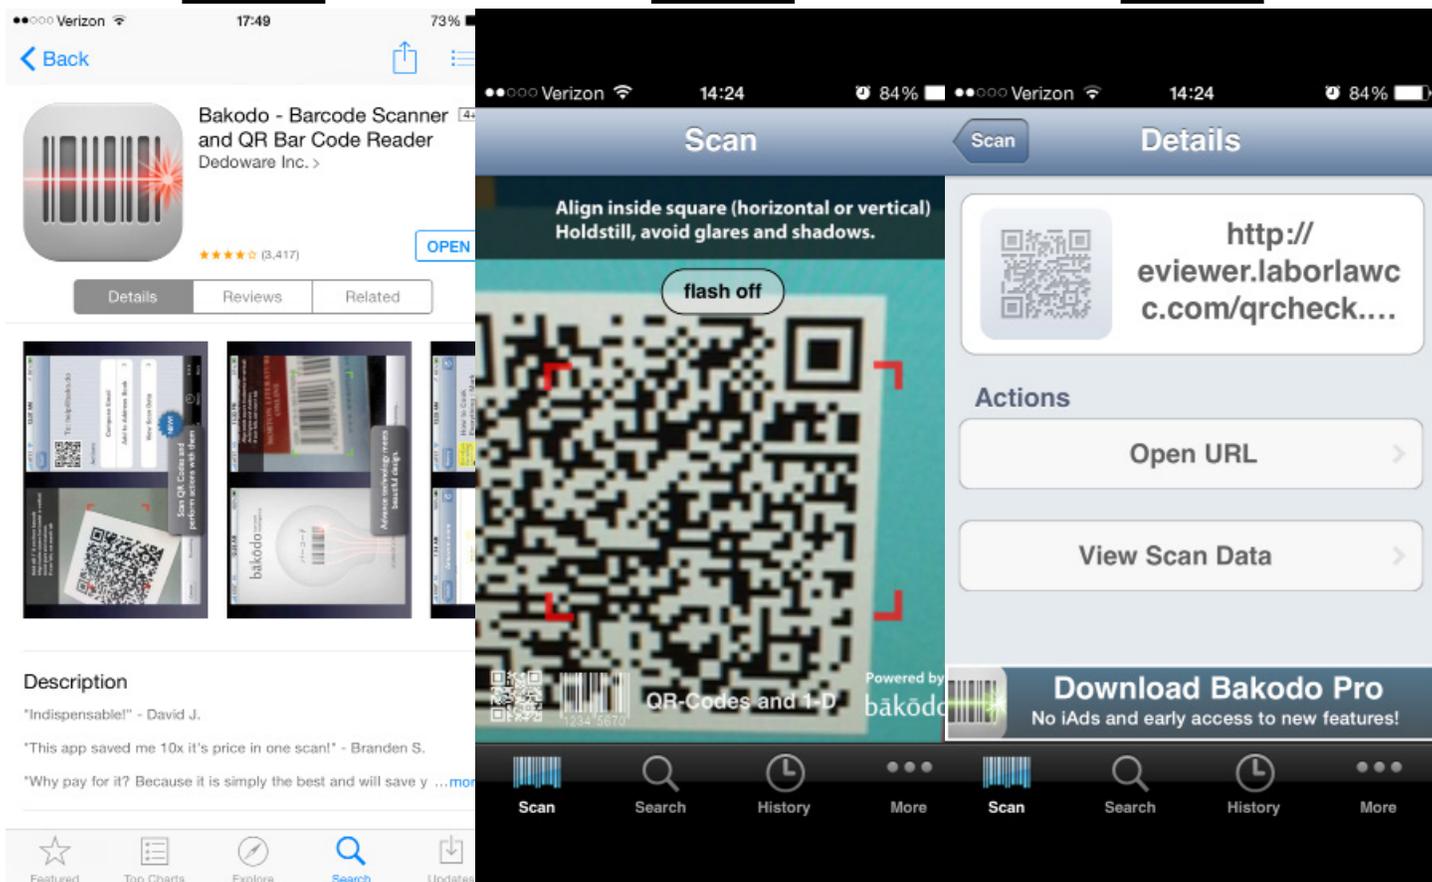

Below are simple instructions to ensure that your required Labor Law compliance posters are up-to-date and meet the Federal and State requirements.

1. Download a QR code scanner application (we recommend Bakodo for the iPhone platform and QR Code Reader for the Android platform.)
2. Open the scanner app and scan the desired QR code. QR codes will be located in the bottom left corner of each poster. Your phone should beep when the QR code has been scanned.
3. Tap “Open URL” or “OK” and the page will be displayed within the application.
